Creative Project Manager with 10+ years of experience leading multidisciplinary teams delivering digital products, enterprise web applications, and customer-facing experiences across financial technology and creative agency environments. Skilled at bringing together strategists, designers, developers, QA engineers, and business stakeholders to transform ideas into successful products while balancing creative vision, technical execution, timelines, and budgets. Technical background in front-end development enables effective collaboration with engineering teams while fostering strong partnerships across design and product organizations. Passionate about creating thoughtful user experiences and helping creative and technical teams do their best work.

Selected Highlights

- 10+ years leading cross-functional teams through the successful delivery of digital products and enterprise software initiatives.
 - Manage 4 to 6 concurrent software implementation projects across three enterprise client organizations, maintaining 95%+ on-time milestone delivery.
 - Lead multidisciplinary teams of 4 to 6 developers, 2 designers, and 2 QA engineers, creating alignment across Product, Engineering, UX, and business stakeholders.
 - Manage software implementation projects averaging \$200K with monthly to bi-monthly release cycles.
 - Certified ScrumMaster experienced in Agile delivery, roadmap execution, stakeholder management, dependency tracking, and process improvement.
 - Hands-on experience with HTML, CSS, JavaScript, REST APIs, Shopify, and WCAG accessibility.
-

-

Professional Experience

InvestCloud 2023 - present
Project Manager

- Lead execution across 4 to 6 concurrent enterprise software implementation projects spanning three enterprise client organizations, consistently achieving 95%+ on-time milestone delivery.
- Partner daily with Product Managers, software engineers, designers, QA engineers, and business stakeholders to align priorities, coordinate deliverables, and maintain project momentum.
- Translate business goals into actionable project plans, managing timelines, scope, dependencies, and release schedules across multiple workstreams.
- Facilitate sprint planning, backlog refinement, project status meetings, retrospectives, and executive reviews to ensure transparency and predictable delivery.
- Maintain project roadmaps, documentation, and risk tracking while providing stakeholders with clear visibility into project health and priorities.
- Identify execution risks early and proactively coordinate solutions across teams to keep projects on schedule.
- Manage implementation budgets averaging \$200K while forecasting resource utilization and supporting delivery planning.

- Use AI tools to assist with documentation, drafting, and communication where appropriate to improve efficiency.
- Continuously refine delivery processes through retrospectives and operational improvements that enhance collaboration and execution.

InvestCloud 2020 - 2023

Front End Developer

- Developed responsive enterprise web application features using HTML, CSS, JavaScript, and REST API integrations.
- Collaborated closely with Product Managers, UX designers, software engineers, and QA teams to deliver intuitive, customer-facing digital experiences.
- Produced technical documentation supporting implementation, testing, and production deployments.
- Mentored junior developers and contributed to improved code quality and maintainable front-end architecture.

Moxie 2014 - 2019

Sr. Project Manager

- Led multidisciplinary teams of strategists, UX designers, visual designers, developers, QA engineers, and client stakeholders delivering digital experiences for the My Verizon mobile application.
- Managed project planning, timelines, budgets, resource allocation, and execution across multiple concurrent initiatives.
- Served as the central point of communication between creative, technical, and client teams, ensuring alignment on priorities, expectations, and deliverables.
- Facilitated Agile ceremonies including sprint planning, backlog refinement, retrospectives, and release coordination.
- Partnered with executive leadership to balance staffing, project priorities, and agency delivery objectives.
- Directed implementation of WCAG accessibility standards in collaboration with UX and engineering teams, improving the accessibility and usability of digital experiences.
- Coordinated distributed onshore and offshore development teams while maintaining consistent communication and predictable delivery.

Creative Projects

Independent Toy Creator

- Conceived and hand-sculpted an original soft vinyl collectible figure from concept to final prototype.
- Coordinated manufacturing with an independent production partner in Mexico, overseeing prototype revisions and final production.
- Designed product packaging and prepared finished products for direct-to-consumer sales.
- Managed order fulfillment, shipping, and customer communication through Instagram.
